WCC CSI Chapter Member Receives Northeast Region Distinguished Service Award

The Region Distinguished Service Award, a medallion, is the most prestigious award given by the Northeast Region of CSI. Its purpose is for the Region to give special recognition to those individuals whose long-term commitment, exemplary performance, and significant contributions have helped the Region and their chapter to develop, grow and improve. The Distinguished Service Award is not intended to duplicate the honor and recognition conferred by the national award of Institute Fellowship, but rather to recognize those individuals whose activity has been primarily at the local and regional level in support of the Northeast Region and its chapters.

This year the Worcester Chapter nominated Roland Barrett for the award. The seven voting members on the Distinguished Service Award Jury, consisting of two past Institute Directors, two members-at-large, two past award recipients and the Junior Chair of the Region Awards Committee agreed. Roland received his medallion during the awards banquet at the NE Region Conference in Vermont on May 23, 2013.

Our local members all know Roland has been very active in CSI for the last 18 years including serving as President, Treasurer, Director, Newsletter Editor, Awards Chair and of course with a smile and his camera at monthly meetings and the golf tournament registration desk. He has also been continuously involved at the Region for the last 12 years including 8 years as Treasurer, four as Finance Committee Chair, and two as a Director.

Congratulations Roland!
